## **Accessing a Web Folder on MacOS X 10.4 (Tiger) and higher**

### Step 1/3

If you use MacOS X 10.4 (Tiger) or newer versions you do not need any additional software. The operating system supports the access to encrypted Web Folders.

To access the Web Folders open the Finder and go to "Go->Connect to Server". Insert the URL to your directory into the field "Server Address".

### Step 2/3

Insert your network account and password.

**WebDAV File System Authentication**

Enter your user name and password to access the server at the URL "https://pro.unibz.it/staff\_webfolder/jsmith/" in the realm "pro.unibz.it."

Your name and password will be sent securely.

Name  
jsmith

Password  
.....

Remember this password in my keychain

Cancel OK

### Step 3/3

After the successful connection you will see the following window with the content of your Web Folder:
