Wireless LAN – Accedere alla propria directory sotto MacOS X

Passo 1/3

Per accedere alla Sua directory seguite i seguenti passi:

Cliccate su "Go" nel "Finder" e poi su "Connect to Server...".

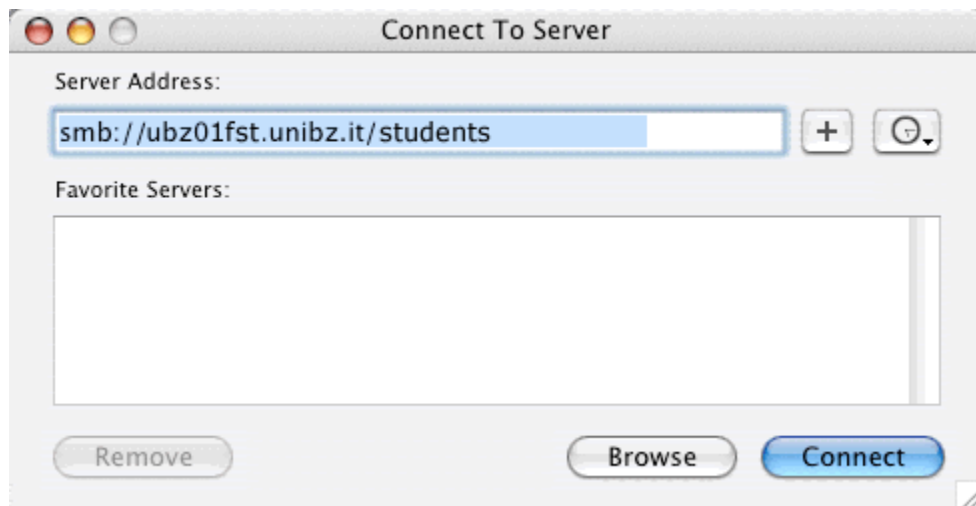

Passo 2/3

Inserite nel campo "Server Address": "smb://*servername*.unibz.it/*sharename*".

"*servername*" viene sostituito con il nome del server relativo alla sede (vedi lista sotto).

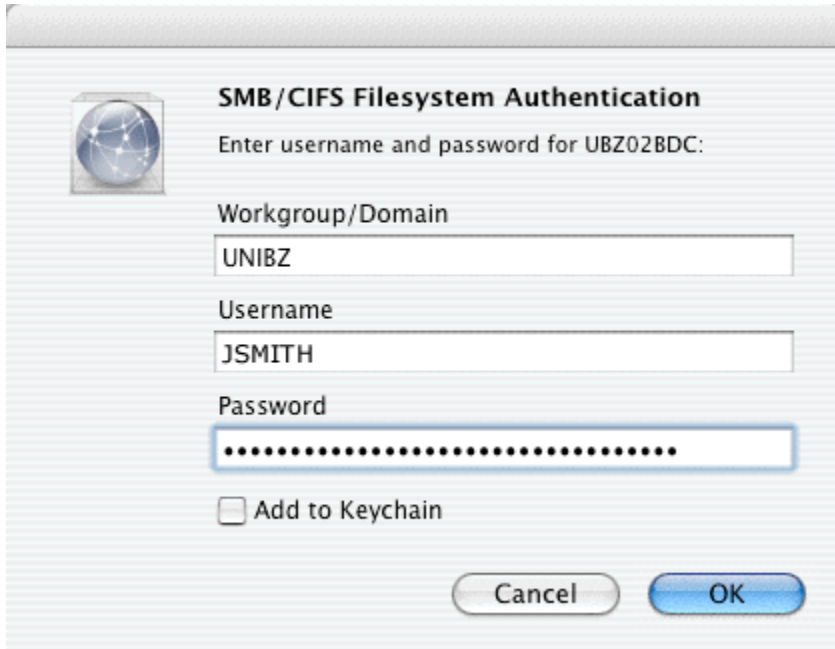

Il "*sharename*" normalmente è "students" per gli studenti e "profs" per i professori.

Sede	Server (<i>studenti</i>)	Server (<i>professori</i>)
Bolzano	UBZ01FST	UBZ01FST
Design Weinegg	UBZ01DFS	UBZ01DFS
Bressanone	UBX01FST	UBX01PRF
Brunico	UBK01BDC	UBK01BDC

Passo 3/3

Fate il login con il Vostro nome d'utente e password.

The image shows a macOS-style dialog box titled "SMB/CIFS Filesystem Authentication". It contains a small icon of a globe with network lines. The text inside the dialog reads: "Enter username and password for UBZ02BDC:". Below this, there are three text input fields: "Workgroup/Domain" containing "UNIBZ", "Username" containing "JSMITH", and "Password" which is filled with dots. At the bottom left, there is a checkbox labeled "Add to Keychain" which is currently unchecked. At the bottom right, there are two buttons: "Cancel" and "OK".

SMB/CIFS Filesystem Authentication
Enter username and password for UBZ02BDC:

Workgroup/Domain
UNIBZ

Username
JSMITH

Password
.....

Add to Keychain

Cancel OK
