Course description

This programme offers an up-front approach to contemporary challenges where art, design and technology converge to address and communicate powerful messages on global issues ranging from the climate crisis and energy transition to geopolitics and the inclusion of social minorities. The programme will enable designers and artists to develop interdisciplinary projects that combine rigorous artistic and design practice with advanced technological and theoretical applications.

Through three thematic studios - Natures-Cultures, Critical Environments and Techno-Human Expressions - students will explore new dimensions of artistic and design creation using traditional media as well as emerging technologies. The method of teaching integrates creative practice with a solid theoretical foundation, stimulating critical discourse and innovative solutions.

Online Info Sessions

We offer online information sessions in the coming months during which the master programme will be presented and where interested students can address their questions to professors and students. The Info Sessions take place on the following days:

- to be defined

Study course structure

The course is structured over **four semesters** and **combines practical and theoretical learning**. Each of the three complementary macro areas is covered in a dedicated semester:

1. **Nature and Ecocriticism:** Focuses on theoretical and methodological approaches to contemporary environmental challenges through innovative artistic and design practices. Disciplines include ecocriticism, ecofeminism and urban ecology.
2. **Spatial Practices and Innovation in the Context of the Inhabited Environment:** Explores the socio-political dynamics of spatial practices in art and design, addressing challenges such as urbanisation, migration and digitalisation through theory and practice.
3. **Technology and Theory of Artistic Form:** Integrates advanced technologies (e.g. AR, AI, 3D printing) into artistic and design processes, encouraging experimental and interdisciplinary projects.

The **fourth semester** is dedicated to research and the development of the **final project**.

Study Plan - Master in Eco-social Design

* **Thesis Project Phase 1** can only be taken once the exams of project 1 and 2 have been passed.

** Free Choice Courses

You have to choose free choice courses for a total amount of 12 credit points. These courses may be chosen among those offered by the Faculty of Design and Art and/or those of the other faculties of unibz. At the beginning of each academic year, the Faculty announces which courses are offered and recognised as free choice.

*** Seminars

During the 4 semesters, students must attend 3 seminars which provide useful knowledge for the introduction in to the job market, among the offered ones, for a total of 6 credits. Attendance of the seminars is compulsory and foresees a pass/fail test.

**** Degree Thesis

In the fourth semester, you develop a final project as your master's degree. You can choose your project. Your work is overseen by a thesis supervisor and a co-supervisor. You present and discuss it before a board.

Our ateliers

Ateliers are dynamic and collaborative workspaces designed to foster the exchange of ideas between students and supervisors, encouraging both individual and team work. Here, practice and theory seamlessly blend, providing an environment where students can apply theoretical knowledge to practical projects. Whether working on solo projects or collaborating with peers, students are supported by experienced supervisors who guide and inspire them throughout their academic journey.

Our Workshops

The workshops at our faculty are equipped with state-of-the-art facilities, ensuring that students have access to the tools and resources they need to bring their design and artistic visions to life. Here you will find all the traditional and modern tools you need to turn your projects into reality. Skilled professionals manage our workshops and will help you by sharing their experience with you.

Exchange programmes and internships

Currently we offer exchange programmes with partner universities all over the world and we are part of a large network of collaboration with employers in Italy and abroad where you can undertake your internship. However, this study programme does not require a compulsory internship.

Career opportunities

The programme is designed to train highly skilled professionals capable of working in interdisciplinary and pioneering contexts. Students are provided with advanced and up-to-date skills in the fields of design and art, with particular attention to the intersection of these fields with the latest technological developments and a deep understanding of the cultural aspects involved.

Graduates of the programme will be well-prepared to pursue careers in diverse and interdisciplinary fields, leveraging their advanced skills in design, art, and creative technologies. They will be equipped to work in areas such as multimedia and visual arts, art and design curatorship, and art direction, as well as in the management of cultural and creative projects.

Additionally, their expertise in innovation and sustainability will enable them to contribute to forward-thinking initiatives that shape the future of creative industries. With a strong foundation in both traditional and emerging media, graduates will be able to navigate and thrive in dynamic professional environments, addressing contemporary and future challenges in the cultural and technological landscape.

Admission procedure

The admission procedure includes **2 stages**, candidates can gain a maximum score of **100 points**

What are the most pressing issues that, in your view, should be considered by practitioners in the field of art or design working at the intersection of culture and technology? What answers should be provided to the urgent questions that the present confronts us with? In a maximum of two A4 pages, we expect you:

- to explain the core ideas of your project via an abstract describing the context in which the project is positioned and the topics that will be addressed;
- to visualise it concisely with the help of images (these can include graphics, explicative diagrams, references, sketches, etc.) that will enable us to understand how the project could be formalised.

We are not looking for fully developed projects but for compelling ideas that demonstrate your thought process and creativity.

We are very interested in the candidates' motivation and their ability to communicate it, which is why it is very important that artificial intelligence is not used in the drafting of this document.

Failure to upload the curriculum vitae and the outline of a project proposal by the deadlines will result in the exclusion from the admission procedure.

Based on the documents received, the commission will decide which applicants will be admitted to the second stage of the admission process.

Stage 2: Interview max 40 points

The second stage consists in an online interview aimed at having a dialogue to gain a deeper understanding on the candidate's ideas, experiences and points of view.

Will be evaluated:

- Interdisciplinary interest

- Creative abilities of the candidates

The interview, lasting approximately 15 minutes, will cover:

- Experience already acquired in the field of study
- Inter- and transdisciplinary experiences
- Innovative and creative thinking
- Ability to discuss and reflect critically

Candidates must achieve a minimum score of 60/100 total points to be eligible for the enrolment.

3. Score obtained for the project letter of interest

Only in the case of further ties, the younger candidate will be preferred.

Ranking lists

The Admission Committee will only evaluate the documents uploaded in the portal by the application deadline. The ranking lists with the admitted students will be published here and are only valid for the respective academic year.

Secure your admission and enrolment

If you have been admitted to more than one study programme, you can secure your admission for a maximum of 2 programmes by paying the designated rate twice. By confirming your place, you renounce admission to the other programmes.

1. Choose the study programme and pay the fees (to secure your admission) in the application portal.

The deadlines are indicated in the “Deadlines” section.

If you do not meet this deadline, you will automatically be excluded and the next applicant in the ranking list will be admitted.

For EU citizens and citizens given parity of treatment only: any remaining places of the early bird application, will be offered in the late application.

Please note that you do not gain full student status by only paying the tuition fees. This status will only be acquired upon enrolment. If you have secured your admission, there will be no refund of the tuition fees unless you do not pass your Bachelor final exam or, in the event of non-EU applicants living abroad, you do not receive the documents necessary for enrolment from the Italian authorities in your country.

2. Enrol online in the application portal.

The deadlines are indicated in the “Deadlines” section.

Enrolment is recommended as early as possible, so you have the possibility to upload incomplete documents before the deadline.

If you do not meet the enrolment deadline, you will be excluded and the next applicant in the ranking list will be admitted.

Admission with reservation:

If you do not have the required academic qualification, you will be given a conditional offer for a study place and you must submit your qualification upon enrolment. If you achieve your qualification after the enrolment deadline, you cannot enrol, and you will lose your place which will be offered to the subsequent applicant in the ranking list. **Advice:** If you achieve your

- the diploma of your qualification
- the official translation of your diploma into Italian (not necessary if the diploma has been issued in German or English)

If you have gained your qualification abroad in one of the Countries that are signatory to the Lisbon Convention you must also upload:

- the Statement of **Correspondence** of your qualification, to be downloaded from the ARDI - Automatic Recognition Database – Italy

If you have gained your qualification abroad in a country that is not a signatory to the Lisbon Convention, you must also upload:

unibz performs the necessary checks on your foreign qualification and in case of doubt reserves the right to request additional documents.

Please note that if you do not possess a valid admission qualification, you can be excluded with Rector's decree even after enrolment.

If you are a non-EU citizen living abroad:

If you are eligible for admission (check the ranking lists) and have also applied on University, the Italian Authorities in your own country will issue you the entry visa for studies/university.

This will allow you to arrive in Italy to enrol for the study programme that you have applied for, after passing the admission procedure.

According to Italian law, within 8 working days of your arrival in Italy, you must have applied for the residence permit: as soon as you arrive, get in touch with the Advisory Service and you will be given the necessary information for starting the procedure.

Once you will obtain your residence permit (permesso di soggiorno), you have to hand it in at the Student Office personally or via e-mail.

Students intending to transfer from another Italian University to unibz must submit to the Student Office - at the beginning of the academic year - a copy of the transfer application presented at the university of provenance.

Fees amount to € 1200

- **1st instalment (€ 600):** includes the revenue stamp of € 16.
